Tue, 09 Oct 2018 19:48:00 GMT - Student binder printables can help students keep all of their important school and class information organized, setting them up for success from the moment they head back to school! The student binder printables are baaaaaacccccckkkk! :) Over the past few months, one of the most common questions I have received is, 'When are you going to update the student binder?!'

Fri, 12 Oct 2018 08:38:00 GMT - In part 1 of this series of blog postings, I showed my preliminary design of a dual tracking linear power supply. In part 2, I showed the completed design and also the finished power supply circuits. And as promised last time, I have made a couple of videos showing the measurements of a few key parameters and will share the results here.

A Digitally Controlled Dual Tracking Power Supply - Kerry Wong -

Tue, 21 Aug 2018 20:10:00 GMT - Audra, Thanks for sharing your experience. PVA is the primary solution I have chosen for my own work for the same reasons you have stated. Hot glues are usually used in the commercial binding industry and they combine it with spine roughening before the glue is applied to create more surface area for the glue to bind too.

Thu, 11 Oct 2018 07:35:00 GMT - Stereolithography (SL or SLA from Stereolithography Apparatus) is an additive manufacturing process using a vat of liquid UV-curable photopolymer "resin" and a UV laser to build parts one layer at a time. On each layer, the laser beam traces a cross-section pattern of the part onto the surface of the liquid resin. Exposure to the UV laser light cures, solidifies the pattern traced on the resin ...
