Mon, 08 Oct 2018 17:54:00 GMT - Extending a nap doesn't always work. As it mentions in the short nap post, some babies are simply short nappers. There are also quite a few babies that have a hard time with nap transitions (going from one sleep cycle to the next) while they are young but are able to get through them on their own when they get older (often closer to 6 months of age), which allows them to sleep a longer stretch.
