Sat, 28 Jan 2017 01:01:00 GMT - Creativity and critical thinking are key skills for the complex and globalized economies and societies of the 21st century. A new project at the OECD Centre for Educational Research and Innovation (CERI) aims to support higher education institutions to enhance the quality of their teaching to foster students' creative and critical thinking.

Fostering and assessing students' creative and critical ...-

- Creativity can be described as an emergent phenomenon in which the whole "the creative process" is larger than the sum of its parts "the conditions, facts and assumptions that started it. Both creativity and emergence are nonlinear phenomena: the emergence of a new steady-state in a dynamic system occurs abruptly as it crosses a particular threshold.
