Tue, 10 Jul 2018 06:34:00 GMT - List basics. There are three types of lists: unordered lists, ordered lists, and description lists (a.k.a. definition lists or association lists). In the following sections, various list types are used for different examples, but other list types will generally give corresponding results.

### **Help:List - Wikipedia -**

- As seen in the previous example, information entries (pdftitle, pdfauthor, etc) should be set after the package is loaded. Otherwise L A T E X expands the values of these options prematurely.
