Sun, 12 Aug 2018 22:22:00 GMT - An analgesic or painkiller is any member of the group of drugs used to achieve analgesia, relief from pain.. Analgesic drugs act in various ways on the peripheral and central nervous systems. They are distinct from anesthetics, which temporarily affect, and in some instances completely eliminate, sensation. Analgesics include paracetamol (known in North America as acetaminophen or simply APAP ...

Sun, 21 Jan 2018 23:53:00 GMT - The soursop fruit is a funny little fruit found in Asian markets all around the world. But little do people know that soursop, the cancer killer, can treat a variety of tumour types, and works as a great preventative measure in developing cancer in the first place. Cancer will affect nearly 1 in 3 people at some stage in their life. With such a high rise in cancer rates, and very few treatment ...
