Tue, 10 Jul 2018 23:59:00 GMT - Although dogs do use sounds and signals, much of the information that they send is through their body language, specifically their facial expressions and body postures. Understanding what your dog is saying can give you a lot of useful information, such as when your dog is spooked and nervous about what is going on, or when your dog is edgy and might be ready to snap at someone.

Thu, 26 May 2011 01:26:00 GMT - Dogs communicate in many ways with each other, using verbal cues, body language and facial expressions. They also try to communicate with humans using these methods. Humans, of

course, communicate with dogs with commands and phrases.

### **Understanding Dog Body Language and Verbal Clues -**

- Science is an essential tool for understanding dogs, but the contributions of canine science to dog welfare have, unfortunately, been somewhat mixed. Canine science, which originated in the 1950s, sets out to provide a rational perspective on what it's like to be a dog – a perspective ostensibly more objective than the traditional human-centered or anthropomorphic view of their natures.
