Thu, 14 Jun 2018 16:59:00 GMT - If you open a PDF in Acrobat Reader, for example, you can scale the document to be much larger than the actual size. Because PDFs save the actual text with the document (it is not rasterized), the text will look clean and sharp no matter how much you scale the page. The same is true for vector images in the document, as they are made up of paths, not pixels. Bitmap images, however, will become more and more blocky the larger you scale the document.
